Labhkriti, established in 2004, stands as a testament to the timeless art of marble craftsmanship. From its inception, it has been dedicated to redefining the world of marble sculpture, statues, water fountains, and intricate jali work. This book is a celebration of Labhkriti's journey, paying homage to its artisans, their exceptional craftsmanship, and the exquisite products they create.

In the heart of Udaipur, where the sands of time seem to settle, Labhkriti was born, a beacon of artistry in marble. The chisels in our artisans' hands are not just tools; they are extensions of their souls, shaping the raw stone into expressions of unparalleled beauty.

Labhkriti's creations are not mere sculptures; they are stories etched in marble, tales of regal palaces and ancient traditions. The statues stand as silent sentinels, bearing witness to the passage of time. The water fountains dance with liquid grace, their cascading waters a symphony of elegance. The intricate jali work, a delicate tapestry of stone, is a testament to the boundless imagination of our artisans. This book is more than pages and ink; it's a tribute, a celebration of our journey.

It's an homage to the artisans, the heartbeat of this legacy.

Their hands, weathered by time and marked by dedication, breathe life into each creation.

Every sculpture, statue, fountain and jali work is a testament to their exceptional craftsmanship.

So, as you turn the pages of this book, know that you're not just reading; you're embarking on a journey through time, through artistry, through the very heart of Labhkriti. Each page is a brushstroke, each word a chisel, shaping the narrative of a legacy that has redefined the world of marble craftsmanship.

Welcome to the world of Labhkriti, where every creation is a masterpiece, and every artisan, a maestro.

Our Process

At Labhkriti, our journey begins deep within the heart of marble mines, where nature's bounty lies hidden beneath the earth's surface. Each block we extract is a promise of potential, waiting to be shaped into a work of art that will grace homes and spaces around the world.

Step 1: The Quest for Stone

Before the chisel touches the stone, our quest begins in the mines of Udaipur, Rajasthan, where the finest quality marble is born. These quarries, steeped in history, are carefully chosen for their exceptional quality and unique patterns.

Step 2: Extraction and Transport

Once identified, the chosen blocks are extracted with precision and care. Each block, weighing several tons, is delicately lifted and transported to our workshop, where it will begin its transformation.

Step 3: Design and Conceptualisation

In the workshop, the block of marble awaits its destiny. Our skilled artisans, guided by years of expertise, meticulously study the unique features of the marble. The design begins to take shape, with the customer's vision and preferences at the forefront of our minds.

Step 4: The Artisan's Touch

With chisels in hand, our artisans embark on their dance with the marble. Each strike is deliberate, guided by years of experience and an intimate understanding of the stone. The marble yields, slowly revealing the hidden beauty within.

Step 5: Finishing and Detailing

As the form takes shape, the finer details are etched with precision. Every curve, every contour, is perfected to bring out the true essence of the design. The marble, once rigid, now exudes a sense of life and movement.

From the depths of the quarry to the heart of our spaces, this journey transforms a block of marble into a cherished work of art with every step, the customer's vision is at the forefront, ensuring that the final piece resonates with their individual taste and style.
